Safety Tip: Hand-Washing

Note The Muscogee County School District will continue to practice preventative actions as advised by the CDC.

Keeping hands clean is one of the most important things we can do to stop the spread of germs and stay healthy. Hand-washing **can** help prevent illness. Regular handwashing, particularly before and after certain activities, is one of the best ways to remove germs, avoid getting sick, and prevent the spread of germs to others. It's quick, it's simple, and it can keep us all from getting sick.

Reminders

Parents,

Your student's safety is our priority, therefore, I.D. is required when visiting our school. All visitors must have an I.D. in order to receive a visitor's pass. Before you or an authorized person may visit or check out your student, an I.D. must be presented.

You are welcome to briefly visit your student's class (**no longer than 15 minutes**). If you would like to speak with your student's teacher, please contact the teacher to schedule an appointment.

Please make sure your student's teacher knows how he/she goes home. You must have a Hannan car tag if you are picking up via car or walk-up.

Changes to afternoon mode of transportation will only occur with a written note to the classroom teacher. **NO call into the office will be accepted.**

Students will wear uniforms daily.

Thank You
